ARTICLE I

LETTER *from the Founder*

To the 35 —

Before there's a Series A, before there's a venue map, before there's a public launch in New Orleans — there's this. A small round, reserved for the people who knew about Music Habitat before there was a Music Habitat. Family. Close friends. Early believers. People who got texts at 1 a.m. about an idea.

This is not a marketplace transaction. The terms here are designed so that if I do well, you do well — in economic lockstep. Same dilution. Same exit math. Same pari passu rights. You're not paying retail; you're standing where I am.

It's also speculative. There's no public market, no guaranteed exit, and a real chance you lose what you put in. So the round is small, the maximum is small, and the minimum is small. Don't over-extend. Invest only what you can lose without changing your year.

Thank you for being one of the 35. Whether you participate or not, you're already part of the story.

With gratitude,

Brandon Beard

Founder & CEO · Music Habitat Corp.

ARTICLE II

THE *Opportunity*

2.1 What Music Habitat Is

Music Habitat is the parent company behind a connected family of live-music products: StageBid™ (bid-based booking marketplace), the StageBid Ticketing API Rolodex (secure credential management across global ticketing platforms), Go Live (livestreaming), Fan Layer (audience engagement), and the digital EPK / Venue Card / Musician profile architecture.

2.2 Stage

Pre-launch. New Orleans go-live targeted for 2026. Series A target H1 2027.

2.3 Why Now

The live-music industry has remained structurally fragmented while every adjacent industry digitized. The Music Habitat thesis is that there is room for a coordinating layer — one operating system that the artist, venue, and musician each use, with one set of ground-truth data and one set of money flows.

2.4 Market

TAM \$121.5B · SAM \$12.0B · SOM \$500M (year-five). See the Executive Summary for sources and methodology.

2.5 Revenue Trajectory

Y1: \$2M · Y2: \$12M · Y3: \$35M (target). Three-year revenue mix is SaaS-led, with transactional ticketing/booking volume layered in.

ARTICLE III

TERMS *of the Offering*

3.4 Conversion Trigger

ARTICLE IV

THE *Circle 35*

Recognition only — not an economic right. The Circle 35 is the founder's acknowledgment of those who showed up first.

- **Tier 1 — The Inner Circle (\$500 – \$2,500):** Founder thank-you, named acknowledgment in investor materials, exclusive Circle 35 badge artwork.
- **Tier 2 — Charter Backers (\$2,500 – \$10,000):** All Tier 1 + invite to annual Charter Backer event in New Orleans + early access to product features.
- **Tier 3 — First Believers (\$10,000 – \$25,000):** All Tier 2 + non-binding Investor Advisory Committee seat + founder Q&A access + custom Circle 35 plaque.

Tier perks are recognition only; they do not change the economic or voting terms of the underlying SAFE / Class B position.

ARTICLE V

RISK *Factors*

Investment in Music Habitat is speculative and involves a high degree of risk. You should not invest unless you can afford to lose the entire investment.

- **Startup risk:** Most early-stage companies fail. Music Habitat is pre-launch.
- **No public market:** There is no liquidity. You may hold this position for many years — possibly forever.
- **Dilution:** Future financings, option pools, and warrant exercises will dilute Class B holders. Class B shares are 100% dilutable.
- **Conversion contingency:** The SAFE converts only upon a Qualified Financing of $\geq$ \$500,000. If no such financing occurs, the SAFE may never convert.
- **Warrant expiration:** Warrants expire 9 months after Grant Date. If the Qualified Financing has not occurred by then, the Warrant expires worthless.
- **Class A control:** Brandon Beard holds Class A Founder Shares with 15:1 voting. Class B holders cannot outvote the founder on most matters.
- **Regulatory:** The live-music industry is subject to regulation by federal, state, and local authorities. Ticketing in particular is the subject of active legislative and antitrust attention.
- **Competition:** Music Habitat competes with established platforms with greater resources.
- **Forward-looking statements:** Revenue projections, market sizing, and timelines are estimates and may differ materially from actual results.

ARTICLE VI

DOCUMENTS *in This Package*

This Offering Package is the master overview. The full Friends & Family Round consists of the following execution documents:

- **SAFE Agreement:** The convertible security itself. Investment, conversion mechanics, Class B share rights.
- **Warrant Agreement:** 3× warrant coverage at 95% of FMV, 9-month expiration.
- **Subscription Agreement & Investor Questionnaire:** The subscription form and required Reg D / accreditation Q&A.
- **Stock Purchase & Transfer Agreement:** Mechanics for primary issuance and any future secondary transfer (ROFR, Tag-Along, Drag-Along).
- **Stockholders' Agreement:** Voting, transfer, and governance covenants among all Stockholders of record.
- **Operating Agreement:** The internal governance document of the Company. Board, officers, share classes, protective provisions, indemnification.

Each document is binding on its own terms. Where any conflict exists, the Operating Agreement controls on matters of corporate governance, and the SAFE controls on matters of conversion economics.
