ARTICLE I

Letter from the Founder

To our founding investors —

Before there's a Series A, before there's a venue map, before there's a public launch in New Orleans — there's this. A focused round, opened to accredited investors who believe in what Music Habitat is building. Early believers. People who see the opportunity before the market does.

This is not a marketplace transaction. The terms here are designed so that if I do well, you do well — in economic lockstep. Same dilution. Same exit math. Same pari passu rights. You're not paying retail; you're standing where I am.

It's also speculative. There's no public market, no guaranteed exit, and a real chance you lose what you put in. Invest only what you can lose without changing your year.

Thank you for considering Music Habitat. Whether you participate or not, we appreciate your belief in the vision.

With gratitude,

Brandon Beard

Founder & CEO · Music Habitat Corp.

ARTICLE II

The Opportunity

2.1 What Music Habitat Is

Music Habitat is the parent company behind a connected family of live-music products: StageBid™ (bid-based booking marketplace), the StageBid Ticketing API Rolodex (secure credential management across global ticketing platforms), Go Live (livestreaming), Fan Layer (audience engagement), and the digital EPK / Venue Card / Musician profile architecture.

2.2 Stage

Pre-launch. New Orleans go-live targeted for 2026. Series A target H1 2027.

2.3 Why Now

The live-music industry has remained structurally fragmented while every adjacent industry digitized. The Music Habitat thesis is that there is room for a coordinating layer — one operating system that the artist, venue, and musician each use, with one set of ground-truth data and one set of money flows.

2.4 Market

TAM \$121.5B · SAM \$12.0B · SOM \$500M (year-five). See the Executive Summary for sources and methodology.

2.5 Revenue Trajectory

Y1: \$2M · Y2: \$12M · Y3: \$35M (target). Three-year revenue mix is SaaS-led, with transactional ticketing/booking volume layered in.

ARTICLE III

Terms of the Offering

3.1 Security

By tier: Tier 1 investors receive a SAFE (converting into Class B Preferred Shares) plus a Warrant; Tier 2 investors purchase Class B Preferred Shares plus a Warrant; Tier 3 investors purchase Class B Preferred Shares. See Article IV.

3.2 Valuation Cap

\$12,500,000 pre-money. The Company has declared 10,000,000 authorized shares, implying \$1.25 per share at the cap.

3.3 Discount

5% (SAFE investors convert at 95% of the next round's per-share price).

3.4 Conversion Trigger

The SAFE converts upon the first to occur of: (i) a Qualified Financing of $\geq$ \$1,000,000 aggregate gross proceeds (excluding Private Raise SAFEs); (ii) gross revenues of $\geq$ \$500,000; or (iii) $\geq$ 100,000 registered users.

3.5 Investment Limits

\$2,500 minimum (2,000 shares). Maximum by allocation at the Company's discretion. Aggregate round target: \$750,000.

3.6 Warrant Coverage

2 $\times$ the Purchased Shares (or SAFE Conversion Shares for Tier 1) at 95% of FMV, exercisable within 9 months of the Grant Date.

3.7 Class B Rights

Pari passu with Class A on all economic events. 1:1 voting (vs. Class A's 15:1). Tag-Along, Drag-Along, ROFR, Preemptive, and Information rights as set forth in the Operating Agreement and Stockholders' Agreement.

3.8 No Interest; No Maturity

The SAFE bears no interest and has no maturity date.

ARTICLE IV

Tier Structure

Participation is structured in three tiers by order of subscription. Tier placement determines the form of security received.

- **Tier 1 — Investors 1–25:** SAFE Agreement + Warrant. SAFE converts into Class B Preferred Shares upon the Conversion Trigger; Warrant covers 2× the SAFE Conversion Shares at 95% FMV.
- **Tier 2 — Investors 26–35:** Class B Preferred Shares at \$1.25 + Warrant. Direct purchase of Class B at the cap price, with a 2× Warrant at 95% FMV.
- **Tier 3 — Investors 36+:** Class B Preferred Shares at \$1.25 only. Direct purchase of Class B at the cap price.

All tiers receive Class B Preferred Shares (directly or upon conversion), pari passu with Class A on economic events. Tier placement affects the instrument and warrant coverage only — not the underlying Class B economic and voting terms.

Risk Factors

Investment in Music Habitat is speculative and involves a high degree of risk. You should not invest unless you can afford to lose the entire investment.

- **Startup risk:** Most early-stage companies fail. Music Habitat is pre-launch.
- **No public market:** There is no liquidity. You may hold this position for many years — possibly forever.
- **Dilution:** Future financings, option pools, and warrant exercises will dilute Class B holders. Class B shares are 100% dilutable.
- **Conversion contingency:** The SAFE converts only upon the Conversion Trigger — a Qualified Financing of ≥ \$1,000,000, gross revenues ≥ \$500,000, or ≥ 100,000 registered users. If none occurs, the SAFE may never convert.
- **Warrant expiration:** Warrants expire 9 months after Grant Date. If no Conversion Trigger has occurred by then, the Warrant expires worthless.
- **Class A control:** Brandon Beard holds Class A Founder Shares with 15:1 voting. Class B holders cannot outvote the founder on most matters.
- **Regulatory:** The live-music industry is subject to regulation by federal, state, and local authorities. Ticketing in particular is the subject of active legislative and antitrust attention.
- **Competition:** Music Habitat competes with established platforms with greater resources.
- **Forward-looking statements:** Revenue projections, market sizing, and timelines are estimates and may differ materially from actual results.

ARTICLE VI

Documents in This Package

This Offering Package is the master overview. The full Private Raise consists of the following execution documents:

- **SAFE Agreement:** The convertible security itself. Investment, conversion mechanics, Class B share rights.
- **Warrant Agreement:** 2× warrant coverage at 95% of FMV, 9-month expiration.
- **Subscription Agreement & Investor Questionnaire:** The subscription form and required Reg D / accreditation verification Q&A.
- **Stock Purchase & Transfer Agreement:** Mechanics for primary issuance and any future secondary transfer (ROFR, Tag-Along, Drag-Along).
- **Stockholders' Agreement:** Voting, transfer, and governance covenants among all Stockholders of record.
- **Operating Agreement:** The internal governance document of the Company. Board, officers, share classes, protective provisions, indemnification.

Each document is binding on its own terms. Where any conflict exists, the Operating Agreement controls on matters of corporate governance, and the SAFE controls on matters of conversion economics.
